

FC-162ACC-pad printing machine by 2-color ink-cup w/x-y slide table

One jig can print in two colors

- Sliding track dual-color machine, its advantage is that only one fixture is needed for production, which is particularly suitable for users with small production volume, and the machine cost is lower than that of disk or oval plate.
- Pressure-adjustable ink scraping (patent No. M311585), can easily adjust the ink cup scraping pressure.
- Built-in intelligent bar chart, provides a comprehensive overview of production capacity, operating time, and production speed over the past 30 days.
- WiFi function, connect to the FineCause Smart Factory APP to view equipment capacity anytime and anywhere.
- PLC control, easy to add functions. Cylinder running speed, screen display fault detection, screen message display.
- Electronic air pressure sensing, automatic alarm display when air pressure is insufficient.
- Multiple sets of formula storage function, set parameters.
- Equipped with a 7.0-inch color TFT touch screen, built-in 5 languages, Traditional Chinese, English, Indonesian, Vietnamese, Thai.
- Can be additionally equipped with a constant temperature device to achieve a more ideal printing effect by controlling the ink temperature.
- Can be equipped with a flipping mechanism fixture, automatically flip the material for printing, can automatically flip the front and back sides for printing, accurate and fast, improving productivity.

Model	Color	Machine Size (cm)	Capacity / hr	Suitable Cliché Size	Net W.
FC-162ACC	2	L:70 W:78 H:140 cm	800~1500 pcs	L:90 W:200 H:10	125KG
