Click here to see user guide of the APP.

Settings of WiFi extender on standard machine

FINE CAUSE will provide services for its standard product as below:

1. a SSID; 2. APP password; 3. WiFi extender IP

(Each machine holds different SSID / APP password / WiFi extender IP given by FINE CAUSE)

To see your production status, you will need to access WiFi connection first. First of all, turn on the machine and connect to WiFi.

Mobile phone WiFi settings

1.

- ▶ When access to WiFi via mobile phone, make sure your WiFi connection is activated. Connect to SSID **FA1234500000123** (the aforesaid figure is an example SSID of the machine). The Network does not require password when connected. Follow **2. ~ 11.** for further steps.

Laptop WiFi settings

1.

- ▶ The WiFi extender is located behind the 7" screen panel connected with wire between its middle orange port and your laptop. Activate WiFi, and search SSID (e.g. **FA1234500000123**). Following steps are the same as mobile phone settings referred to **2. ~ 11.**

2.

3.

Note for users:

Please access Internet Explorer instead of Google Chrome to avoid "Login Failed" when set up WiFi connection of the machine.

- ▶ Insert the WiFi extender IP to search URL.
- ▶ WiFi settings on a laptop shall be conducted via Internet Explorer and type the WiFi extender IP to search URL.

- ▶ Enter login page along with WiFi extender IP, and insert default account number "admin" and password "admin".

FINE CAUSE Productivity APP

4.

► Click "運作模式" on top right hand corner of the page after login.

5.

► Click "WISP" on left column of the page.
