

GMFC700VS-TW

Planetary Centrifugal Mixer

Mix • Disperse • Vacuum Degas

High-Speed Mixing for High-Viscosity Materials

Combining revolution, rotation and vacuum technology, the GMFC700VS-TW delivers ultra-fast, uniform mixing and complete degassing in just **90 seconds**.

Zero bubbles. Zero compromise.

90
SECONDS
TO PERFECTION

REVOLUTION + ROTATION

Powerful 3D Mixing
for Uniform Dispersion

**REVOLUTION
+ ROTATION**

Powerful 3D mixing
for perfect dispersion

**VACUUM
DEGASSING**

Remove trapped air
completely

**BUBBLE-FREE
RESULTS**

Zero bubbles,
superior quality

**ULTRA-FAST
MIXING**

Complete mixing
in just 90 seconds

REAL RESULTS. REAL DIFFERENCE.

 **PRINTING INK**

Before

After (90s)

 **SILVER PASTE**

Before

After (90s)

 **EPOXY RESIN**

Before

After (90s)

 **LITHIUM BATTERY SLURRY**

Before

After (90s)

* Actual testing results. Materials may vary.

WHY GMFC700VS-TW?

**DUAL BRUSHLESS
MOTORS**

Stable, powerful and
maintenance-free

**10-STAGE
PROGRAMMABLE
CONTROL**

Flexible process settings
for various materials

**700 mL x 2
CAPACITY**

Suitable for R&D
and production

**RECIPE
MEMORY**

Store and recall
your best process

WIDE RANGE OF APPLICATIONS

Printing Inks

Electronics

Semiconductors

Adhesives

Batteries

Medical

Cosmetics

Chemical &
Laboratories

Experience faster, cleaner, and more consistent mixing.
GMFC700VS-TW Planetary Centrifugal Mixer
Engineered for Excellence. Built for Your Process.
